Memorandum

Date: January 13, 1998

To: Individuals Requesting the Addition/Deletion of a CALFED Water Quality Parameter of Concern

From: Judy Heath, CALFED Water Quality Program

Subject: CALFED Water Quality Parameter Assessment Team (PAT) Meeting on January 28, 1998
(Revised Agenda Attached)

Thank you for your comments on the CALFED Water Quality Program. The enclosed information is being provided to you because you have requested the addition or deletion of a substance from the CALFED Water Quality Parameter of Concern List. At the last meeting of the CALFED Parameter Assessment Team (PAT) on December 3, 1997, PAT members recommended that CALFED staff develop a standard form for individuals to use when requesting the addition or deletion of a parameter of concern.

As a result, the enclosed *Request Form for Addition/Deletion to the CALFED Water Quality Parameters of Concern List* was developed and sent to the PAT for review in December. The request form standardizes the process for requesting the addition or deletion of a parameter, provides a mechanism for requesters to provide supporting information to the PAT, and ensures that PAT members have an opportunity to fully evaluate information on each parameter.

Please complete the enclosed request form and fax it to me at (916)653-5699 or mail it to me at the address above **by Friday, January 23, 1998**. Background information on the CALFED Bay-Delta Program has been enclosed for your reference when completing the request form.

Upon receipt of your completed request form, I will forward it to the PAT for review before the next PAT meeting on January 28, 1998. Should you have any questions please feel free to contact me at (916)653-2994. Again, thank you for your comments on the CALFED Water Quality Program.
